How can winOHS help you?

winOHS is an easy-to-use and affordable Occupational Health & Safety management solution designed to give you the tools necessary to meet your compliancy requirements and make your work environment a safer place for your workers.

- ◆ Streamline OHS related tasks
- ◆ Reduce levels of paperwork
- ◆ Reduce your insurance premium costs
- ◆ Highlight and escalate critical events to managers
- ◆ Ensure completion of actions in a timely fashion
- ◆ Reduce workplace risks
- ◆ Analyse injury types, frequencies, causes, agencies, mechanisms
- ◆ Review reminders of events
- ◆ Quick & easy access to policies & guidelines
- ◆ Store, find and retrieve documents quickly
- ◆ Satisfy criteria for government funded programs & industry tenders
- ◆ Integrates seamlessly with winHR to provide biographical details of employees involved in incidents, OHS positions, committees, auditing, return-to-work programs, compensation claims, training and more

“EQUALS” a safe workplace

Implementation of winOHS

We believe we understand your needs better than most. Favour has a unique approach to implementation; we partner you in the implementation process, in a timely, cost effective manner.

Favour assigns a specialist to setup and configure your new OHS database according to the needs of your organisation

Our objective is to optimally facilitate a smooth transition from your manual or spreadsheet-based process to ensure a speedy uptake and usage of winOHS throughout your organisation.

Most of our clients begin using winOHS the same day it is implemented.

Email Alerts

Email alerts can be used extensively to automatically trigger emails to desired staff members or even external contacts.

They are especially useful in OHS for elevation of important issues such as unfinished events..

webOHS

webOHS is a winHR add-on which allows staff, no matter where they are located, to add incidents or review policies and guidelines via their favourite Internet-browser.
